Pharmacy Manager Sanjay Patel Elected CPha Community pharmacy SIG Chair

*Sanjay was elected the Special Interest Group Chair for community pharmacy the California Pharmacy Association.*

Fremont, California On Thursday, June 18th Hallers Pharmacy Manager/Pharmacists in Charge was elected by fellow Pharmacists in the state of California as Special Interest Group Chair for the California Pharmacy Association. This position is vital to the future of community pharmacies in California, they discuss, develop, and implement policy that will positively affect our community.

Sanjay has been a community pharmacist in the San Francisco area since 1994. Sanjay has held various management positions in area Pharmacies and is currently the Pharmacy Manager at Haller's Pharmacy in Fremont California. Sanjay enjoys helping patients understand and navigate their medications. Sanjay also helps patients understand what immunizations are needed for travel, pain medication management and can help navigate Medicare part D insurance plans.

Sanjay's goal for this position will be to improve the working condition of the pharmacists across all of California such as more support staff and embracing technology to free up time for more patient care. This will in turn improve the outcomes of the patients. Also, in light of Covid-19, he will work to improve the responses/processes to ensure that employees are healthy and safe and not putting the patients in harm's way. This in particular is something the big chain pharmacies need to work on and be held accountable for.

I am excited to be part of a great team and have the opportunity to really affect patient care within the industry. Dawn Mitrisin shares my core values also:

*"My name is Dawn Metrisin, and I am the current Chair-elect of the California Pharmacists Association Special Interest Group for Retail Pharmacists. I took this position to become more involved in my community of retail pharmacists and be a voice for those pharmacists who do not have the chance or opportunity to speak about their struggles with retail practice. I will particularly focus on the future of new roles in the practices of the retail pharmacist. "*

Haller's Pharmacy is a community pharmacy located in the heart of Fremont California since 1957 that offers services such as; Prescriptions Dispensing, Free Delivery, Immunizations, Compounding, Elder Care, Medical Supplies and Birth Control Prescribing.
